Paris, IL 61944

October 25, 2008

To potential customers of Cutting Edge Painting in Champaign, Illinois:

In March of this year, our township experienced a major city sewer breakage resulting in extensive damage to our basement facilities. The cleanup and restoration seemed monumental and I began a search for a firm to tackle the problem. An internet search brought me to Cutting Edge Painting in Champaign, IL. After an e-mail contact, they responded almost immediately with a visit followed quickly by an estimate. After approval by our board, Dustin and his crew began work and work they did. What a job they did! There were set-backs due to heavy rain, but they forged ahead undaunted. They worked so hard. I was amazed how these young men had such a professional work ethic. They worked almost non-stop for many days until our basement was once again made whole. They also came in on budget.

I heartily endorse Cutting Edge Painting to anyone for any size job. They're not afraid of anything and I'm sure the job will be done exactly as promised.

Sincerely,

Charles Geekie, Supervisor
Paris Township
